 [linkedin.com/in/sahil-modan](https://www.linkedin.com/in/sahil-modan)

Azure Cloud Operations Engineer with 4 years of experience supporting production Microsoft Azure environments and building Azure DevOps CI/CD pipelines. Skilled in Terraform, ARM Templates, Docker, Kubernetes, Ansible, and Linux infrastructure automation. Microsoft Certified: DevOps Engineer Expert (AZ-400), focused on reliability, monitoring, and production support.

Professional Experience

- Cloud Operations – Associate Systems Engineer, Stibo Systems May 2022 - Present
- Designed, built, and maintained 20+ Azure DevOps YAML and Release Pipelines deploying application and infrastructure changes across four environments (Development, QA, UAT, Production), improving deployment consistency and release reliability.
 - Automated Azure infrastructure provisioning using Terraform and ARM Templates, replacing manual portal configuration with repeatable, version-controlled deployments.
 - Managed containerized production workloads on Docker and Azure Kubernetes Service (AKS), diagnosing and resolving pod, service, node, and runtime failures to restore service availability.
 - Automated recurring operational and configuration tasks with Ansible playbooks across 50+ managed servers, reducing manual effort and eliminating configuration drift.
 - Built and maintained monitoring dashboards and alert rules in Prometheus and Grafana, increasing infrastructure visibility and reducing manual health checks.
 - Led triage and root cause analysis for production incidents and outages including Java application failures, driving remediation through Jira and sustaining 99.9% platform uptime.
 - Operated within a 24x7 shift rotation as first responder for production platform alerts - triaged Cassandra node-down and worker-node failures, performed initial diagnosis and purge operations, and coordinated resolution with the specialist database team to minimise service impact.
 - Produced uptime, DBA, and platform-health reports consumed by enterprise customers and internal stakeholders to evidence service reliability against SLA.

Technical Skills

CI/CD & Version Control	Azure DevOps (YAML & Release Pipelines), Azure Repos, Git
Containers & Orchestration	Docker, Kubernetes, Azure Kubernetes Service (AKS)
Infrastructure as Code	Terraform, ARM Templates
Automation & Scripting	Ansible, Bash
Cloud & Azure Services	Azure, Entra ID, Azure Resource Manager, Azure Backup
Monitoring & Observability	Prometheus, Grafana
Operating Systems	Linux Administration (RHEL / Ubuntu)
Production Support	Incident Management, Root Cause Analysis, Change Management, Jira

Certifications

- Microsoft Certified: DevOps Engineer Expert **(AZ-400)**
- Microsoft Certified: Azure Administrator Associate **(AZ-104)**
- Microsoft Certified: Azure Fundamentals **(AZ-900)**

Education

- M.Sc. IT (IMS & Cloud Technology), Gujarat University 2020 - 2022
- B.Sc., Gujarat University 2016 - 2019
